Paradigm Shift Why is meditation important? It silences the mind. Just like it's the silence between the notes that creates the music. It is the silence between our thoughts that creates our desires.

Paradigm Shift Please go to our discussion board and tell us about your paradigm shifting moments. I will get the ball rolling with a really simple one but it has been eye opening. I have found that a lot of the foods I thought I didn't like were just because I didn't want to eat them when I was a child. I now make sure I try every food I thought I didn't like and guess what? Some of them I actually love.

Paradigm Shift I have to admit it was at first a weird feeling and a little scary. I could feel my brain changing states. I actually stopped the process the first time I tried it.

However, you soon learn there is nothing to fear and the benefits are incredible.

We are all beings of energy. We send out vibrations and attract back to us similar vibrations. These vibrations manifest themselves into our physical reality.

Here is a cool example to prove like vibrations attract.

Did you know you can play the piano?

You can play a piano. You can play a guitar. You can play any instrument you want. You can sing. And you can do it just as well as anyone that ever lived.

You don't believe me do you?

That is your paradigm controlling you. Your paradigm is telling you that you can't do it.

Paradigm Shift Group Intention Experiments We are going to putting the law of attraction to the test in about a week by performing group intention experiments. Participants will be asked to keep their attention on "something" at a certain time for a specified period of time. We are open to suggestions for the experiment. Please invite your friends to join Paradigm Shift. The more we have participating the better.
